Elektricitet - Avancerad nivå (Fortsättning)

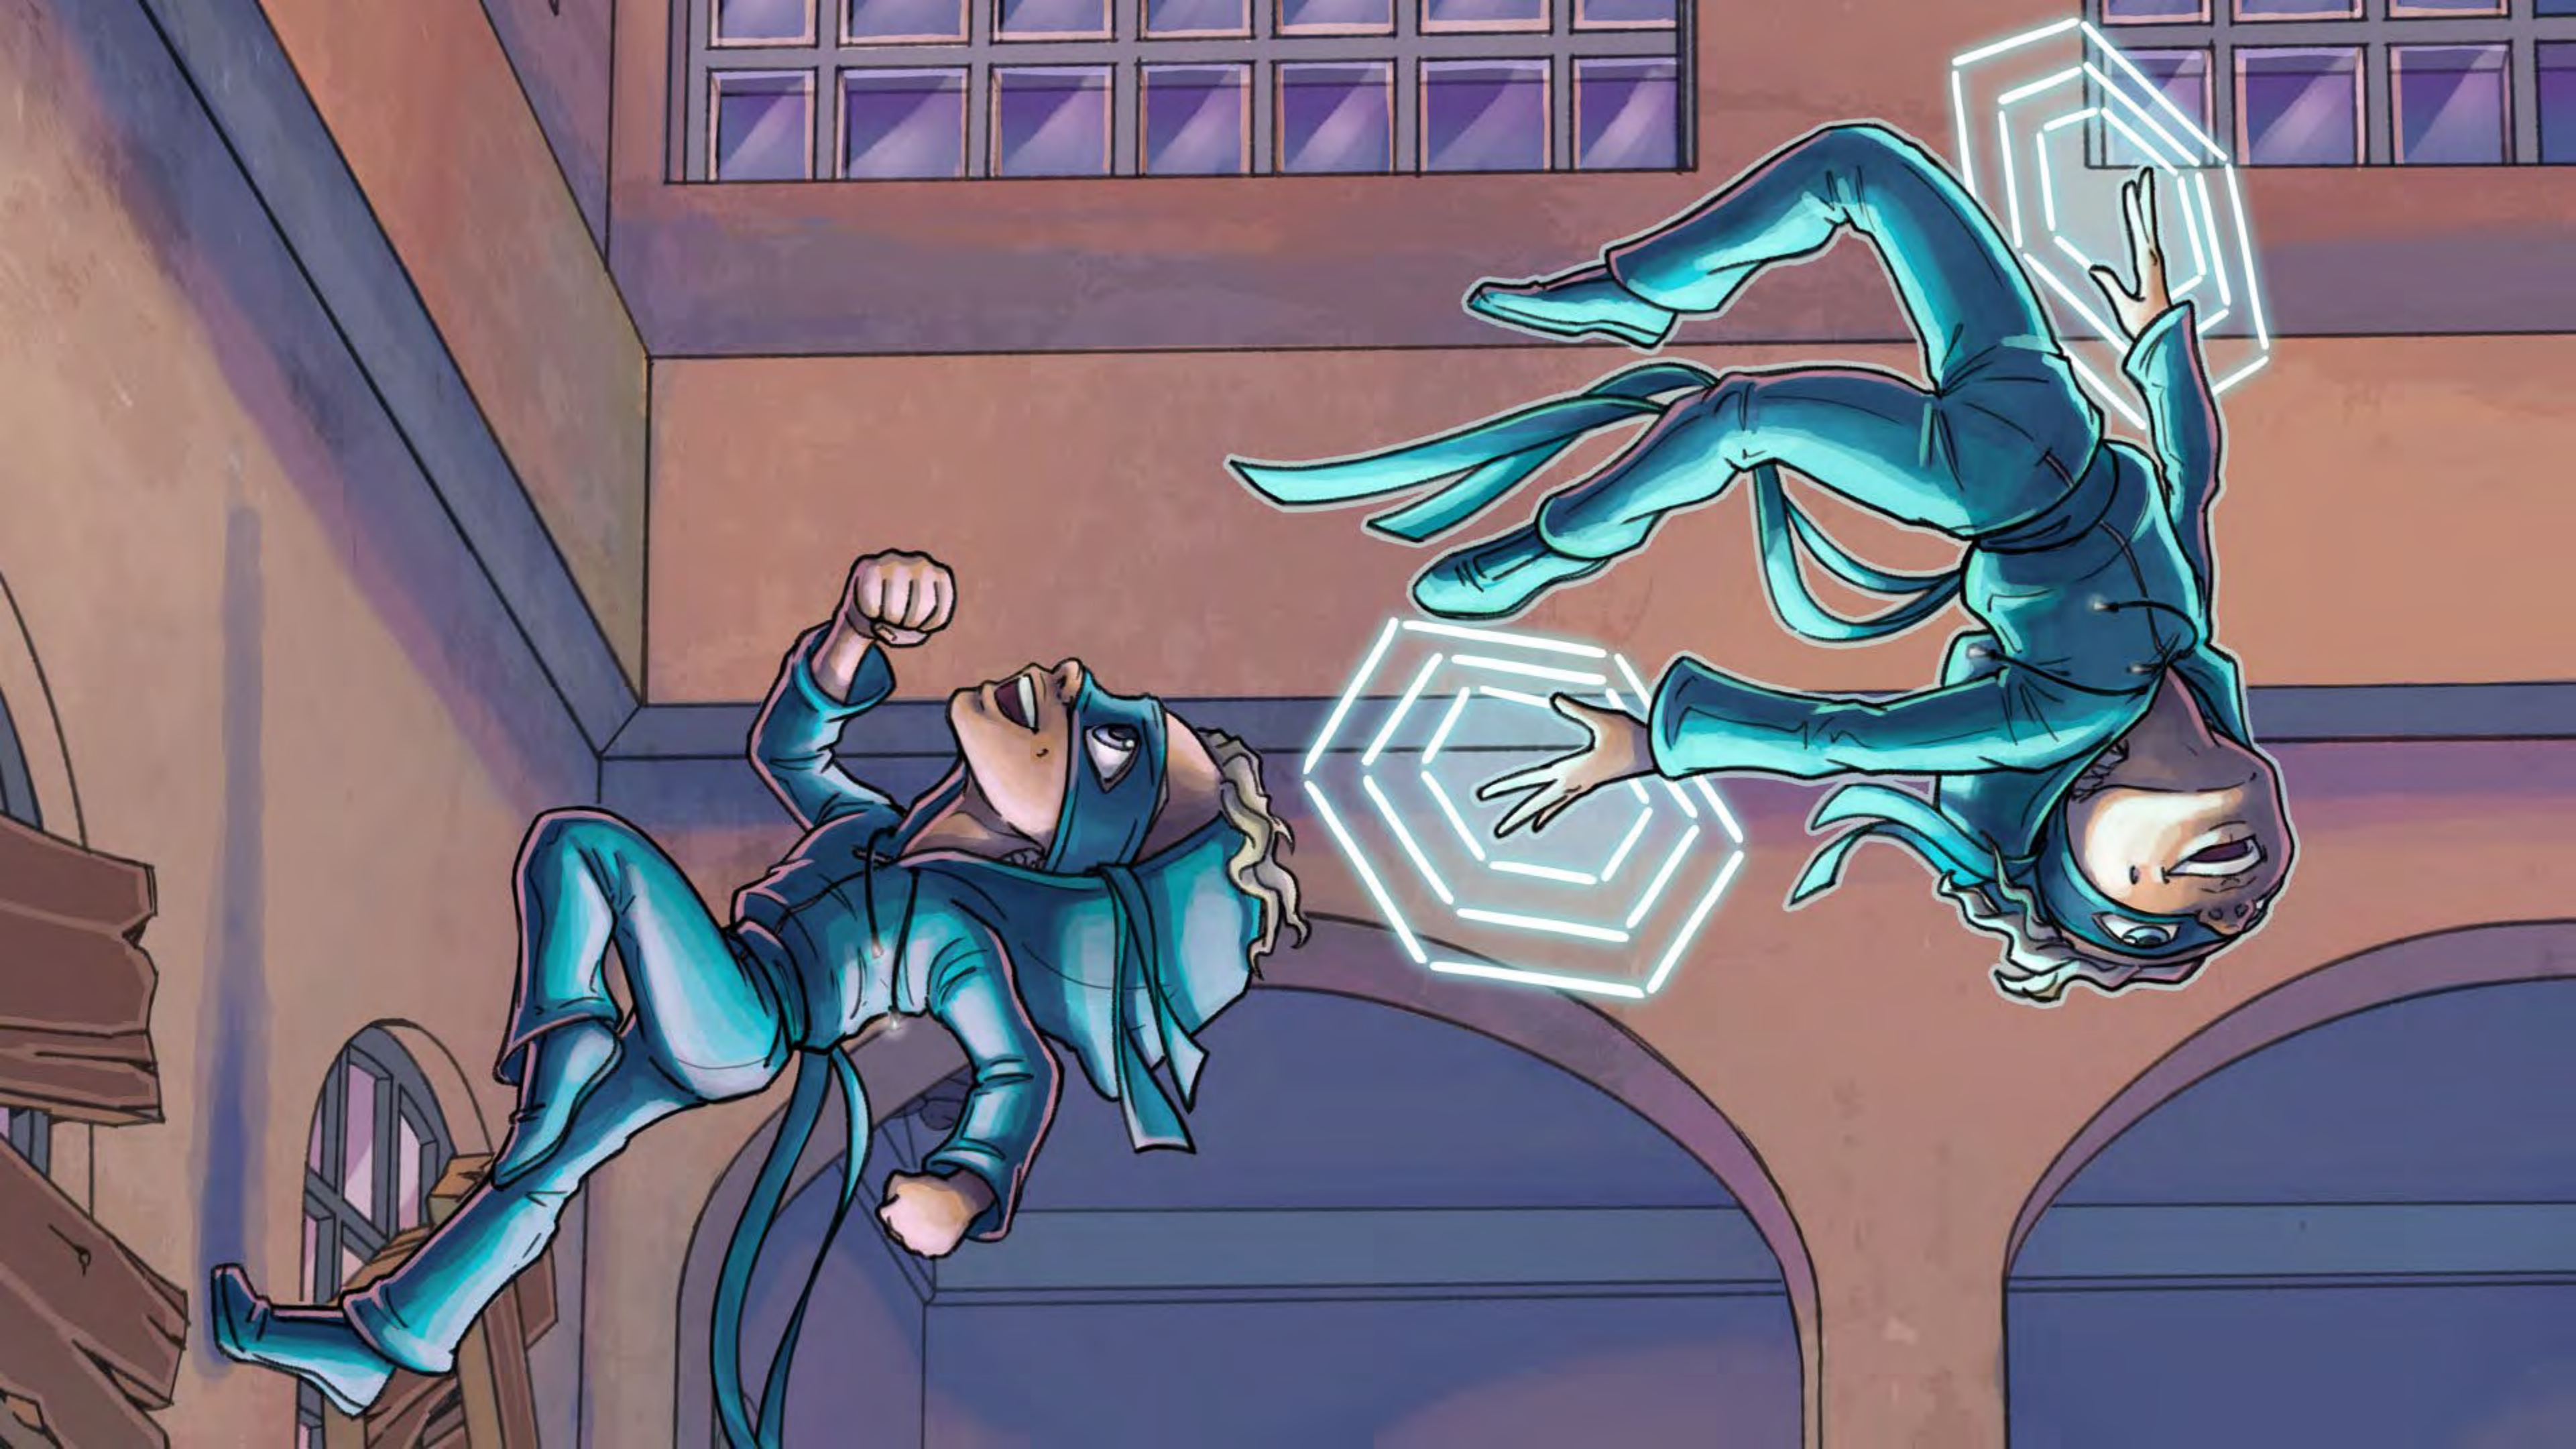

Nu när du fått en bra grund är det dags för nästa steg.
Du kommer inte kunna flyga med den här superkraften.
Men med lite träning kommer de flesta tro att du gör
det. För ditt första elektriska svävande eller hopp gör
så här: Sug in så mycket energi din kropp orkar samla
på sig. Sätt ihop händerna och fokusera på energin som
växer inom dig.

SENASTE NYTT!

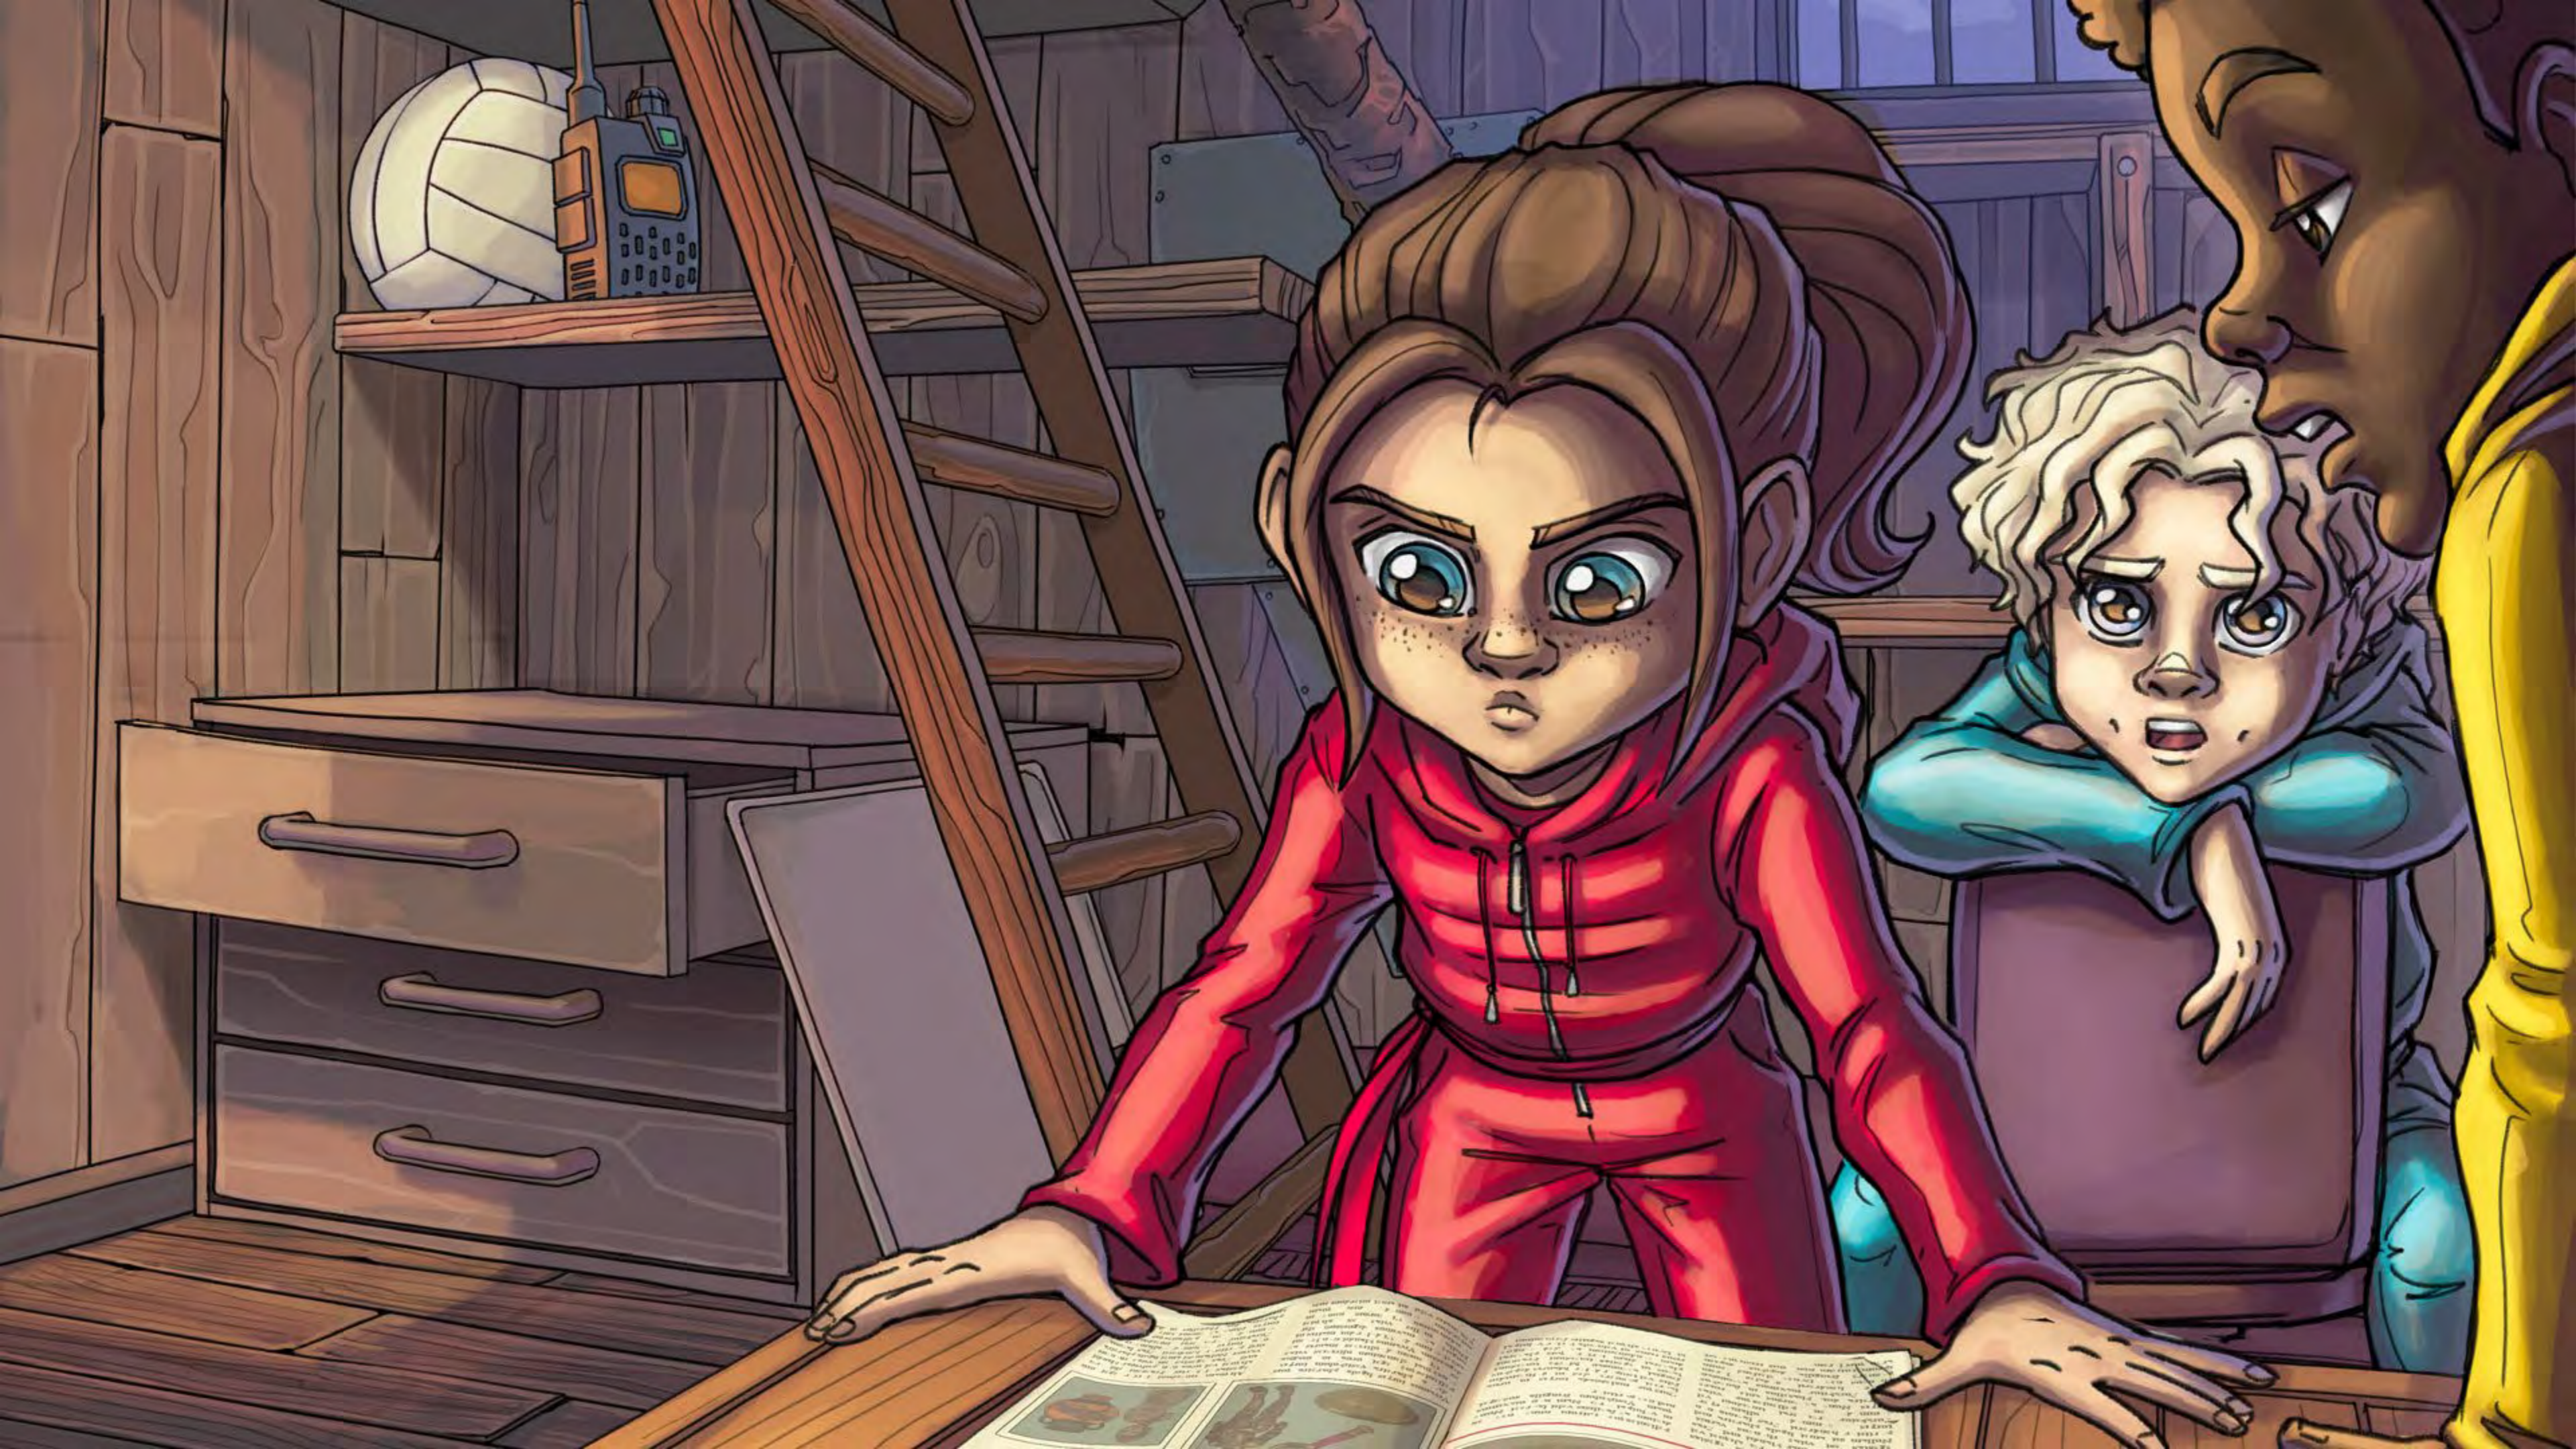

Superhjältarna är värdelösa!

Polisen gör också ett dåligt jobb men att superhjältarna inte kan lösa inbrotten är bara pinsamt. Vad är meningen med alla dessa superkrafter om de inte kan skydda staden?

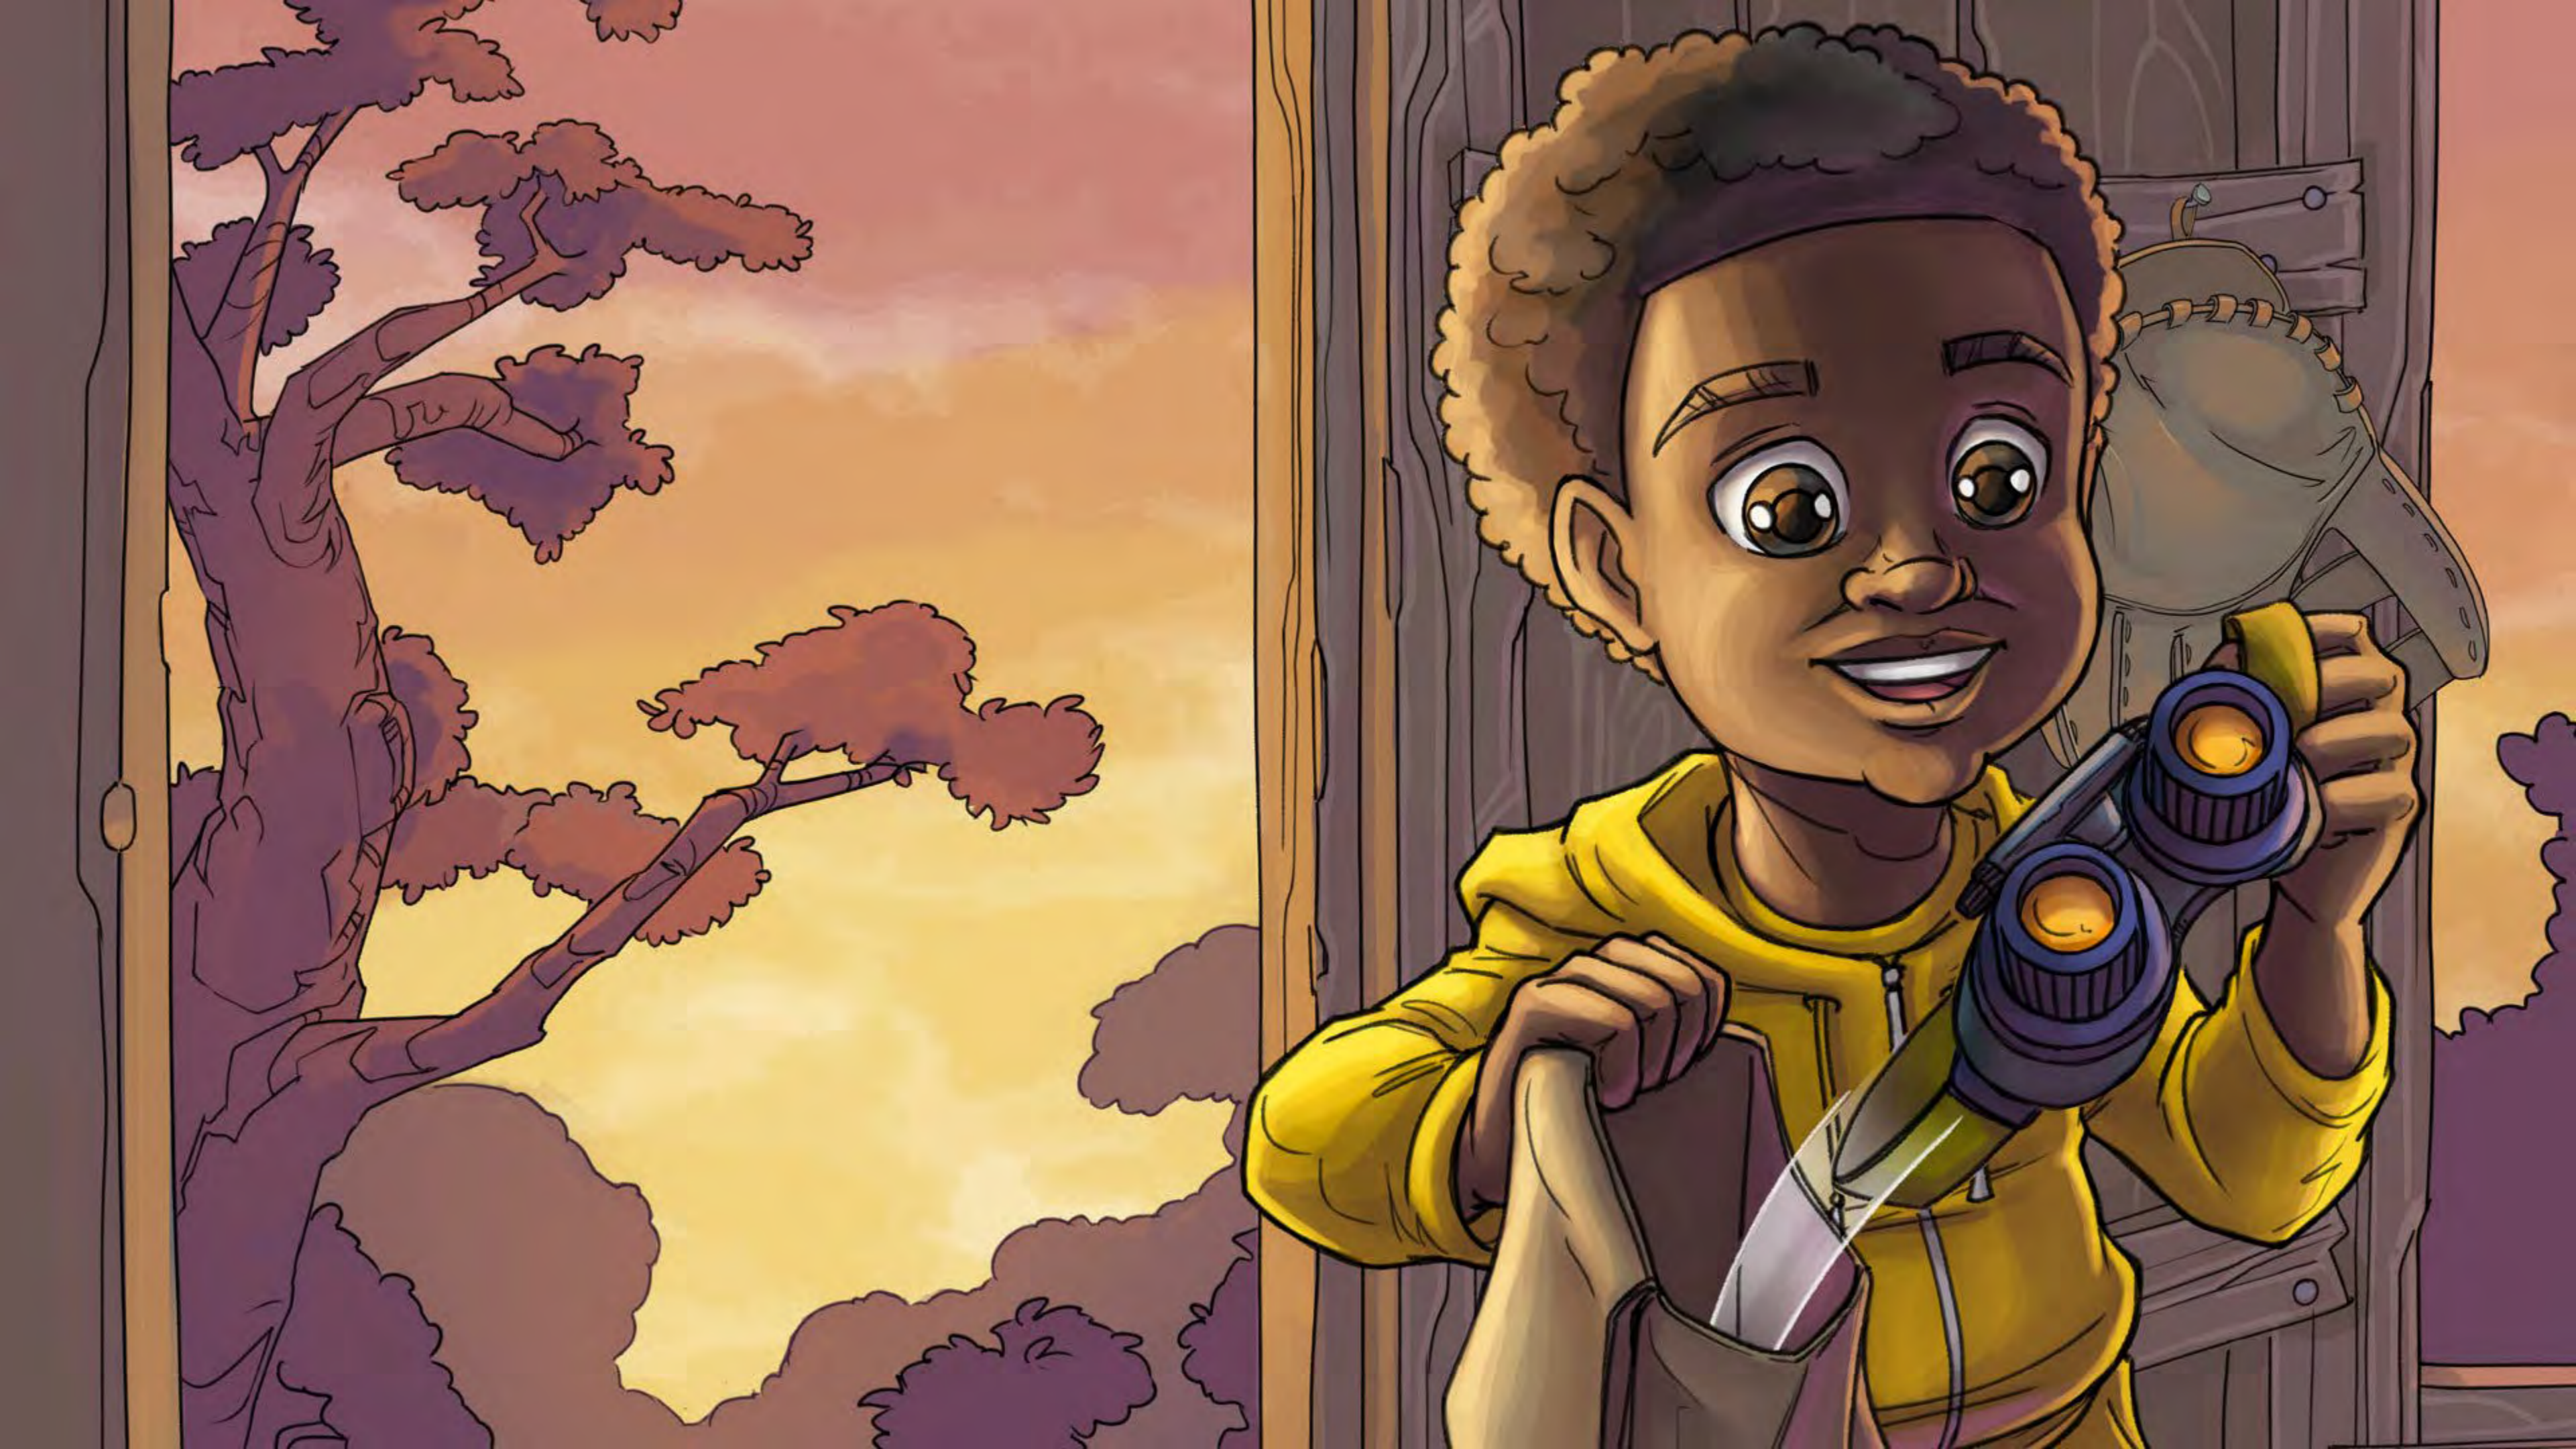

Har ni sett dessa stulna museiföremål?
